

Clip Library:

- Links to every word in transcript.

Review Videos:

- Clusters reviews that are included in a branch together,
- For each word plays 3 clips that include it
- Then supplies phrase with word, then defines it
- Automatically marks card as good

Anki Cards:

- Includes links to all clips it is contained in.
- Every word points to the card that originally defined it,
- Every word includes its object Exploration or which object explorations it is a part of.
- Points to its story.

Character Profiling:

- **Refer to notebook**

Grammar Cards:

- Learn 750 with English
- All demo phrases are simplified in as few words as possible, ideally less than 5, incrementing by 5 according to need of example to demonstrate grammar point.
- Phrases are generated by chat gpt.
- Relearn in Hungarian, suspend English, making new cards for unknown word in the grammar explanations.
- Learn rest of grammar points in Hungarian .

Media Immersion :

- Like with Amazon Prime, when video is paused, can look at overlaid menu for every word in the current phrase, every object Exploration for the word, the character profile for each character present in the previous, current and next phrase.
- the words will be defined and the words will point to other clips that include that word.
- Automatically creates a card if phrase contains only one unknown word.
- Gives option to study new cards after immersion is over
